This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. PREFACE

THE work of collecting and printing the Early Records of the town of Providence was authorized by the following resolution of the City Council of the City of Providence, approved March 6, 1891:

"RESOLVED, That Horatio Rogers, George M. Carpenter and Edward Field are hereby appointed record commissioners, who shall serve without compensation, for the purpose of collecting and printing the Early Records of the town of Providence. And said commissioners are hereby authorized to expend the sum of one thousand dollars for collecting and printing said records, said sum to be charged to the appropriation for printing."

Since the adoption of this resolution the City Council has, from time to time, provided for the continuation of the work.

The present volume is the twelfth in the series of printed books, and reproduces in type what is known as Town Council Record No. 2, 1715–1732. This book contains the proceedings of the Town Council, sitting as a court of probate, and is devoted almost entirely to this class of records, although the granting of tavern licenses, with the attendant privilege of selling liquors, occupied some space.

384091

The extended record of the various probate matters herein referred to will be found in Will Books Nos. 2 and 3, in the custody of the Clerk of the Municipal Court, the Court of Probate for the City of Providence.

The methods pursued in printing have been the same as those heretofore used, and for convenience are here repeated.

The figures at the top of the pages, and enclosed in brackets, indicate the paging of this present volume.

The heavy figures enclosed in brackets represent the paging of the original book as it now stands.

This mark | shows the beginning and end of interlineations in the original.

Words or letters printed in parentheses are so found in the original.

Brackets enclosing blank space, thus, [ ], signify that something is missing, or illegible, in the original.

The sign ꝑ is used to represent a contraction or double letter, which in the original stands for pr, and is used as the representative of syllables containing those letters with a vowel.

An index to names and an index to subjects are added. There is no separate index to Indian names, since very few occur in the volume.

HORATIO ROGERS,
EDWARD FIELD,
Record Commissioners.

Providence, March, 1897.

TOWN COUNCIL

RECORD

NUMBER TWO
